

TRUE FOLIAR FEEDS Bespoke sales only

- The **TRUE FOLIAR RANGE** are all manufactured with a unique system that binds and chelates Fulvic acids and Amino acids to the ionic plant nutrients in each product. This use of organic agents makes these products many times more efficient in terms of foliar uptake than non chelated ions or chemical chelates.
- The **TRUE FOLIAR RANGE** is formulated with the correct chemical forms of each nutrient to allow fast foliar uptake, translocation and immediate use within the plant tissue.
- The **TRUE FOLIAR RANGE** are formulated with two further adjuvants, one to spread and flatten droplets on the leaf and one to stick the solution to the surface allowing higher surface area contact for a longer period of time.
- The **TRUE FOLIAR RANGE** from GREENBEST contains a further unique fractional plant extract that reduces the stress of foliar nutrient application to the leaf and makes the plant more receptive to foliar intake and fast internal movement of the nutrients to their required location.

The Range

Supplied in 2 x 10ltr cans per outer

Principle	Analysis	Application rate	Pack Size	Wholesale Price Ex works	Use
Magnesium	10%MgO + 7%N	10-20 ltr /ha	10 ltr		Magnesium deficiency, disease resistance and green-up
Calcium	11%CaO + 9%N	10-20 ltr /ha	10 ltr		Calcium deficiency, cell wall strengthening, leaf strength
Sulphur	11%S + 10%N	10-20 ltr /ha	10 ltr		Disease resistance, increase nutrient use efficiency
Phosphorus	12%P2O5 + 10%K2O	10-20 ltr /ha	10 ltr		Root mass, disease resistance
Potassium	10%K2O + 1%N	10-20 ltr /ha	10 ltr		Green up, root mass, drought resistance, disease resistance
Nitrogen	16%N	10-20 ltr /ha	10 ltr		Green up, shoot growth, tillering rate, tiller survival
Iron	4%Fe	10-20 ltr /ha	10 ltr		Disease resistance, green up
Silicon	10%SiO2 + 6%K2O + 4%N	10-20 ltr /ha	10 ltr		Cell strengthening, leaf rigidity
Trace Elements	Cu, Zn, B, Fe, MgO, Mn	10-20 ltr /ha	10 ltr		Disease resistance, fertiliser nutrient usage
Green Up	2%Fe + 2%MgO + 8%N	10-20 ltr /ha	10 ltr		Controlled light green up
Growth Up	12%N + 5%K2O + 1%MgO	10-20 ltr /ha	10 ltr		Controlled precision tip growth
Harden Up	3%Fe + 1%MgO + 2%N + 6%K2O + S + Ca	10-20 ltr /ha	10 ltr		Controlled precision hardening, stimulation of winter stasis

All prices are subject to transport and vat costs
